Asleep where lillies bloom and grow,
When summer zephyrs softly blow.
Asleep where waving grasses tall,
And wind-blown leaves in autumn fall.

Bert Powell For Jailor

In this issue of the Times appears the announcement of Bert Powell, of Xena, for Jailor. Mr. Powell stands high in his community where he has many friends. He would make a strong candidate should he be given the nomination and add strength to the ticket. Democrats should weigh well his merits before casting their votes.

To the good people of Powell County:

Federal Land Banks Upheld

The Federal Land Banks were this week upheld by the U. S. Supreme court. This will be good news to farmers who wish to make loans on, long time, and it will tide many over that would have to go broke without it.

The farmers of Powell should at once go about organizing a loan association for we are sure a number of them could use the accommodation with advantage. The Times will be glad to aid in any way possible.

Wants Bridge Over Lulbegrud

Powell county has appointed a committee to confer with Clark county authorities looking to the building of a bridge over Lulbegrud creek some where not far from the mouth of the creek. The matter was brought to the attention of the Clark Fiscal court at a meeting last week, but that county did not then take any definite steps for immediate action.

Getting after the Dogs

Sheriff Wm. Garrett has notice to dog owners in this issue of the Times. There seems a determined effort all over the state among some people to not obey the mandate of the dog law. The Powell county grand jury will convene the third Monday in March at which the delinquent dog taxpayers will be brought to justice. Better pay that license now than have trouble later.

Mr. Bowen is one of the leading citizens in his portion of the county and is very popular. He comes of a large Democratic family, and will make a strong candidate. If elected he will also make a splendid official. Democrats should give his claims due consideration.

Moving Saw Mill to Little Creek

The H. K. Page Log & Lumber Company is moving a saw mill to the Mrs. Ann French farm on Little Hardwick's creek where they will saw a boundary of timber. They seem to be having some difficulty in getting contractors to tackle the job of moving the mill from the railroad siding in Clay City on account of the serious condition of the road up the creek.

Before Spring Comes, Tone Up Your Blood

Your Blood Needs the Help of Gude's Pepto-Mangan in Spring time to Overcome Drowsy, Listless Feelings Called "Spring Fever"

PALE FACES CAUSED BY BAD BLOOD

That Tired, All-Gone Feeling a Danger Signal That Your Blood Needs This Splendid Spring Tonic

The blood that courses through your body in the arteries and veins is of the most vital importance to the healthy life of the body. The little red corpuscles are what carry life to the millions of cells that make up your body. The blood is also the vehicle that carries away most, if not all, of the waste products.

Springtime is the season when the body adjusts itself from the rigors of winter to the heat of summer. You notice how much sickness there is in the Spring? Perhaps there are weeks when you feel drowsy and listless, and you call it "Spring Fever." It is really your blood that has become weak and thin, and it needs help.

Take that good blood tonic—Gude's Pepto-Mangan. It will give the red corpuscles in your blood new power to carry fresh oxygen to the cells all over the body. You'll notice a change for the better in a few days. It brings the color back to pale faces and lifts you out of tired, all-gone feelings so that you enjoy full vigor.

Spring is the time for a good blood tonic. Take Gude's Pepto-Mangan so that you can enjoy the most beautiful season of the year. Get it at your druggist's, but be sure it is the genuine, with "Gude's Pepto-Mangan" printed on the package. It is sold in both tablet and liquid form. They have exactly the same medicinal value. After Insurance Sharks

The Insurance Commissioner at Frankfort is having many complaints coming in from the public, thus he has written the Times the following letter:

"From complaints coming to this Department, there are several Insurance Companies soliciting and securing insurance in this State, which are not authorized by this Department to do business in Kentucky. Before taking insurance of any kind, every person owes it to himself (or herself), to find out if the agent is licensed to solicit insurance and if the company is authorized to do business in this State.

"We know you are interested in protecting the public against 'Insurance Sharks' and, therefore, we are sending you a list, by classes, of all Insurance Companies authorized to do business in Kentucky, as of July 1st, 1920 and a supplemental list of those admitted since that date, so that you may keep same on file and be able to advise your readers as to the companies so authorized. Revised lists will be sent you from time to time as new companies are admitted, or licenses revoked.

"Every agent must procure license from this Department and will be able to produce same if he has been legally appointed and proof of his authority is demanded by the public.

"Any space you may give to this letter will be appreciated by this Department."

Very truly yours,
Manon Cornett,
Deputy Insurance Commissioner.

Avoid Bad Canned Goods

Acting on information received from the Bureau of Chemistry, United States Department of Agriculture, Washington, the Bureau of Pure Food and Drugs of the State Board of Health has issued a general warning against botulism, a disease which occurs as a result of eating contaminated tinned food and which already has caused several fatalities in the United States. No deaths have yet been caused in Kentucky by the disease, the bureau's announcement states, but in order that the people of the State may protect themselves from potential dangers it is deemed advisable that they be acquainted with its seriousness.

The disease is not necessarily fatal, but it is easier to avoid than to cure. Its sole cause is bacteria in canned food and the

The bearing-down pains were actually so severe I could not stand the pressure of my hands on the lower part of my stomach . . . I simply felt as if life was for but a short time. My husband was worried. . . One evening, while reading the Birthday Almanac, he came across a case similar to mine, and went straight for some Cardui for me to try.

My baby was fat and strong, and myself—thank God—am once more hale and hearty, can walk miles, do my work, though 44 years old, feel like a new person. All I owe to Cardui."
